***The JICC and the Japan Commerce Association of Washington,  
D.C. present the ORIGINAL Godzilla!***

The original 1954 **Godzilla** (a.k.a. Gojira) is the roaring granddaddy of all monster movies. It is also a remarkably humane and melancholy drama, made in Japan at a time when the country was reeling from nuclear attack and H-bomb testing in the Pacific. Its rampaging radioactive beast, the poignant embodiment of an entire population's fears, became a beloved international icon of destruction, spawning almost thirty sequels including **Shin Godzilla** which will be released in the U.S. later this month. Join us for this thrilling, tactile spectacle that continues to be a cult phenomenon!

**In Japanese with English subtitles | Not Rated | 96 min | 1954 | Directed by Ishiro Honda**
